

KLEMEN GRABLJEVEC

PROFILE

- Specialist in Physical and Rehabilitation medicine (PRM) and head of Brain Injury Rehabilitation Department of National Rehabilitation Institute in Ljubljana. He has developed the Slovenian ITB program over the last decade and has organized the logistics for state -of-the art Spasticity Treatment in Slovenia with his team.
- In his MSc thesis he studied the endurance and strength of denervated muscles in post-polio subjects.
- In his everyday practice he deals with the comprehensive problems after Brain injury and Multiple sclerosis as well with generalized and focal spasticity of cerebral and spinal origin. He is regularly invited lecturer at the European PRM and other international congresses on the topic of spasticity therapy, Senior fellow of the European Board of PRM and president of the Slovenian PRM Society.
